

# Gustavo Lemes

## Software engineer

For over 5 years, I have been developing applications both as personal projects and professionally. I am experienced in both mobile and web development and have knowledge and experience in the entirety of the development cycle, from project start to deployment.

## Work experience

### Software engineer

Profusion software services, Apr 2012l - Nov 2022

During my time at Profusion Software Services, I had the opportunity to work on several mobile app projects for various clients, including Work and Co. One of my key contributions was working on mobile app development for companies like PGA Tour, Gatorade (PepsiCo), and Traeger Grill. Overall, my time at Profusion Software Services was an invaluable experience that helped me to develop my skills as a mobile app developer and provided me with a solid foundation for future projects in this field.

### Software engineer

Griaule Biometrics, Aug 2020 – Mar 2021

At Griaule Biometrics, I worked as a software developer, focusing on the development of the company's biometric suite. My main areas of responsibility were the fingerprint detection and fingerprint extraction tools, which I helped to develop from scratch.

### Software engineer

OneBrain, Fev 2019 – Apr 2020

Throughout my tenure at Onebrain, I had the opportunity to work on a variety of exciting projects, including projects for companies such as General Motors and disruptive projects such as the Kovver app. I was able to work collaboratively with a team of talented developers and engineers to deliver innovative solutions that met our clients' needs.

### Intern

Affinity Petcare, Jun 2015 – Jun 2016

As an intern at Affinity Pet Care, I had the opportunity to participate in a job rotation program that provided me with a comprehensive understanding of the company's operations. Throughout the rotation, I worked alongside experienced professionals in different departments.

## Education & Learning

### Rocketseat Mobile BootCamp

rocketseat.com.br, Feb 2023

### Rocketseat Fullstack BootCamp

rocketseat.com.br, Aug 2020

### Master of Science in Mechanical Engineering

UNICAMP (State University of Campinas)  
graduated 2019

### Academic Interchange

Czech Technical University  
5 months in interchange end at Mar 2014

### Bachelor in Mechatronics Engineering

UNICAMP (State University of Campinas),  
graduated 2016
